November 30, 2001

To Whom It May Concern:

The Town of Needham awarded E.A. Colangeli Const. a contract for the Renovations to the HVAC Systems at the Needham H.S. The contract value of the project was over \$2,500,00.00 and had a very strict and tight schedule, which had to be completed before November 28, 2001.

Despite many problems encountered with the buildings existing construction E.A. Colangeli completed the project 2 months ahead of schedule. E. A. Colangeli turned the building over to the town before the start of the school year. This gave the students and teachers enough time to smoothly transition back into the classrooms. When any problem arose E.A. Colangeli stepped up to the plate and continued to work toward getting the project completed ahead of schedule.

I have been thrilled with the competency and professionalism of E.A. Colangeli Const. They are some of the best group of professionals I have worked with. I was also positively impressed with the ease of coordination with other trades on the project.

I would highly recommend E.A. Colangeli Const. to anyone with a large renovation or new building project.

Sincerely,

Permanent Public Building Committee

Steven Stewart, Town of Needham Construction Coordinator
